Study MBBS Abroad - Landing Page Development Report

1. Introduction
The "Study MBBS Abroad" landing page is designed to provide aspiring medical students with a clear, informative, and visually engaging interface. The page highlights benefits, top study destinations, eligibility criteria, and a lead generation form for inquiries.

2. Design Approach
The design follows a **modern UI/UX** approach with:

- **A Hero Section with an Image Slider** for an eye-catching first impression.
- **A Clear CTA (Call-to-Action)** leading to the lead form.
- **Mobile Responsiveness** using Tailwind CSS.
- **Fast-Loading Optimizations** with optimized images and minimal scripts.

3. Development Process

- **Frontend:** Built using **HTML, Tailwind CSS, and JavaScript**.
- **Interactivity:** JavaScript enables a **background image slider** and **form validation**.
- **Backend (Optional):** PHP is used to handle form submissions.

4. Key Features Implemented

- **Dynamic Image Slider** in the hero section using JavaScript.
- **Responsive Layout** optimized for mobile & desktop.
- **SEO Enhancements:** Meta tags, structured data, and page speed optimizations.
- **Tracking Integration:** Google Analytics & Facebook Pixel.
- **Lead Generation Form:** Includes validation to ensure user input correctness.

5. Deployment & Hosting
The website is deployed on **Vercel** for easy access and fast performance.
